with

**AGAPE**  
animal rescue

Give your employees the chance to take a “Puppy Paws” over lunch to de-stress and socialize, while supporting foster dogs in need of care, training and loving homes.

## Good For Business

- 87% of the employers said being dog-friendly helps them attract and retain more talent
- Nearly 60% of the employees said they'd choose a dog-friendly employer over one who's not
- By making pets welcome, businesses encourage customers to visit more, stay longer and potentially make more purchases.

## Good For Dogs

- Interaction outside of the foster home gives dogs and puppies opportunities for enrichment, socialization and stimulation -- they leave happy and ready for a nap!
- Provides respite to foster families who work day and night to prepare rescue pups for their forever homes
- Gives adoptable dogs exposure to potential forever-families

## Good For Employees

- 83% of employees at pet-friendly workplaces said having pets at work reduces stress
- Gives employees a joyful opportunity to step away from their desk and interact with their coworkers in a different way
- Happy, healthy employees are more productive and motivated!
